Education

Cornell University | College of Engineering

MAY 2022

B.S. Computer Science, Minor: Information Science

Relevant Coursework: Object-Oriented Design and Data Structures – Honors, Digital Product Design, Probability Models and Inference, Discrete Structures, Networks, Digital Logic & Computer Organization, Linear Algebra

Nrityakala Dance Academy

JUL. 2017

B.A. Dance

Projects

Connect Four AI

JUL. 2019 – AUG. 2019

Created a Connect Four game that can be played two-player or against an AI. Programmed the AI using the minimax algorithm and an evaluation function for board states. Built a GUI closely resembling the authentic game.

Snapchat Case Study

JAN. 2019 – MAY 2019

Conducted user research on Snapchat's Discover Page. Designed and prototyped a new feature using Figma and InVision.

Activities

Cornell AppDev, Cornell Big Red Raas, Theta Tau – Professional Engineering Fraternity, CU MusicVS, Ukulele Club

Work Experience

Designer | Cornell AppDev

SEP. 2019 – PRESENT

Conducted user research and designed interfaces for Eatery – an app enabling students to browse menus and discover places to eat on Cornell's campus. The app currently has over 6,000 monthly users.

CDO / Software Developer | Blacklight

AUG. 2019 – PRESENT

Wrote software for data security and policy conditions by parsing through emails to check spelling, grammar, and punctuation. Designed and developed the company website and brand.

Creative Community Intern | VidMob

JULY 2019 – SEP. 2019

Identified and evaluated the visual design work of potential VidMob Creators based on data science insights.

Graphic Designer

MAY 2017 – PRESENT

Designed materials including logos, campaign brands, apparel, brochures, posters, and guestbooks for several organizations of up to 300 members.

Skills

Software: Python, Java, HTML, CSS, JavaScript, LaTeX
Design: Sketch, Figma, Adobe Photoshop, InVision

Awards

Dean's List, Best Overall – 2018 Hackathon,
10+ 1st Place – Art Competitions
